

K-LOVE is important to my family and many of my friends. The station is a positive, family friendly source of great music that I am able to allow my children to listen to without being concerned. As a citizen of Grand Blanc, Genesee County, Michigan, this radio station has been a source of encouragement and comfort over the years since I found out it was available. I believe this has been true for more than just me and my family. In conversations with both friends and acquaintances I find that many of them listen to K-LOVE for the same reasons. Having a positive, family friendly source of great music and a resource for hurting people across the country is an invaluable asset and needs to be guarded. Thank you.
